

## **SELF-ROTARY-MOTOR (SRM). April 14, 2023.**

### Impressive Tech Invention as Earth Planet Restoration Project.

I'm inventor of Self-Rotary-Motor/SRM that operates by Self-Energized and Self-Transmission systems, no complexity. It doesn't rely on Fuel/Petroleum, Hybrid/PV/Electricity, Kinetic/Potential energy or Aero/Hydro/Thermal energy transmission systems to operate. No side effects to climate very low risk of pandemic by use of SRM, restore earth planet. It freely delivers operations delivered by traditional Engines/Motors, its application customizable; Aerospace, Land Transport/Metro, Medical Tool/Machine, Pump/Generator/Lift, Ship/Boat, Domestic/Industrial component etc. Whenever there is shortage/lockdown, economic/power failure etc. the services are maintained wherever SRM been applied. Registered Patent Attorneys would specify the credibility of SRM when specification disclosed for evaluation to file PCT Utility patents & development.

My natively country, Mauritius, is PCT contracting state as from March 15, 2023. Even so, established IP Law firm experienced in drafting/filing PCT. Utility Patents, Trademark Registration & dealt in Technology Transfer to start development follow up marketing unavailable in my country. Appropriate Manufacturing Industries & IP Fund Org./Venture Capital Firms also unavailable in Mauritius.

I'm searching for support to set the developmental process, exploiting the new impressive tech globally. SRM is a very developed, very advanced invention project, novelty. It cannot fail, if such or scam plan, I accept of any legal action against me. If interested in joining to support inspiring and changing the world by SRM invention project development, welcome.
